**Steve Pearce Introduced Legislation To Remove Protections From Wilderness Study Areas In Luna And Hidalgo Counties.** In September of 2015, the Santa Fe New Mexican reported: “Legislation that would get rid of some...**
Wilderness Study Area designations in New Mexico has been introduced by U.S. Rep. Steve Pearce, R-N.M. The bill, introduced Sept. 10, would return some Wilderness Study Area-designated areas in Luna and Hidalgo counties to the Bureau of Land Management so they can be used for other purposes. Wilderness Study Areas, which are studied for their potential to be designated as part of the National Wilderness Preservation System, put restrictions on how the land can be used.” [Santa Fe New Mexican, 9/23/2015]

**In July 2017, Pearce Wanted to Reduce the Organ Mountain Desert Peaks Monument by 88 Percent.** According to the *Albuquerque Journal*, “But U.S. Rep. Steve Pearce has voiced loud opposition to the current size of the 496,330-acre Organ Mountain-Desert Peaks, which is in his congressional district. He wants the monument reduced by 88 percent, a position supported by some local ranchers.” [Albuquerque Journal, 7/27/17]

| Steve Pearce Wants to Privatize Public Lands and Shrink National Monuments | Pearce even voted to make it easier to privatize our public lands and shrink our national monuments. | Steve Pearce Voted For A Bill That Would Authorize Stripping National Monuments Protections From Large Swaths Of Public Lands. In a markup in the House Committee on Natural Resources, Steve Pearce voted to favorably report HR 3990, a bill that would severely limit the Antiquities Act and create a path for rolling back existing protections. According to a summary written by the Congressional Research Service, under the provisions of H.R. 3990, if enacted: “The President may reduce the size of any declared national monument: (1) by 85,000 acres or less; or (2) by more than 85,000 acres only if the reduction has been |
